

ATOLL PLATE SOL

PRODUCT DESCRIPTION PRESS PLATE CLEANER

PRODUCT SPECIFICATION

It is a water-based product for cleaning dust, resin, and chemical debris from press plates.

CHEMICAL SPECIFICATION

Physical Condition:	Liquid
Color:	Clear colorless
Smell:	Slight
Ph:	1,0 - 4,0
Melting/Freezing:	< 0 C
Boiling Point:	> 100 C
Flash Point:	No Data
Evaporation Rate:	Less
Flammability:	Not flammable
Vapor Pressure:	No Data
Density(20°C):	1,00 - 1,05 g/cm ³
Dissolution:	Totally soluble in water.

USAGE AREAS

It is used as a cleaning agent for plate press surfaces in contact with laminated surfaces.

INSTRUCTION

Use directly or dilute slightly to clean plates.
